Alumni Testimonials

The first thing that I would like to mention about our Department is the concern the staff have for students. Right from day one, they stressed the importance of getting placed in the campus recruitment drive and encouraged us to work hard towards achieving this goal. The teachers always motivated us to perform better. The faculty members are very forthcoming and students can approach the teachers with whatever difficulties they face regarding academics and placement at any time. The value-added classes like BEC also helped us to survive the competition.

My learning at RMDEC has been very useful in building my career and stand now as an Entrepreneur, the discipline and values I acquired from college is immensely helpful in running my venture. I'm proud to see a lot of new initiatives to help students get value based education.
